

COSMIC TRIBE releasing new album "The Overlord"

Neo Hippie Space Rock! That's the name of the style of the hannover based rock band COSMIC TRIBE. It's a unique mix of 70s/80s/Stoner- and modern rock. They have invented this style and celebrate it very successfully!

With **THE OVERLORD** COSMIC TRIBE create a musical road trip through space and time. The new concept album contains all facets of the band - fat riffs, psychedelic melodies and gripping grooves, carried by an unmistakable voice.

The album **THE OVERLORD** is based on the story of their club hit "Come Closer" and tells a story of running away and arriving, a life between the worlds, between love and aggression. It is a journey into the real me and the search for freedom. Main role is the "Overlord", a dazzling ambivalent personality, and the "Vagabond", a young runaway in search of himself. Thrilling, exciting, emotional, sometimes rocky and sometimes ballad-like ...

Produced by COSMIC TRIBE as always, the listener in "The Overlord" gets 16 varied rock songs in the usual cosmic tribe's neo-hippie space rock style. In addition, producer legend Beau Hill has mixed and mastered two songs from **THE OVERLORD** (Supersonic, Coming Home) for the American music market. Both songs can also be found on the album - of course.

For fans of contemporary and classic rock music this album is a must! Who likes deep grooves but also mellow sounds and loves to singalong catchy choruses, needs this exciting and varied album. „The Overlord,, by Cosmic Tribe definitely rocks!

The gods of rock like true rock bands who know their business! And so do the 5 neo hippies from Hannover! It's Grooveshit, Baby!

THE OVERLORD is available at: iTUNES, amazon, Spotify, Deezer
